

2025 World Galloway Conference

We send you our greetings from the American Galloway Breeders Association (AGBA). It is great to be here with fellow Galloway enthusiasts! Thank you to all who took their time and effort to plan and make this conference happen.

The American Galloway Breeders Association is remaining active promoting the benefits of Galloways, providing the registrations and maintaining pedigree records.

The AGBA sponsors 2 Galloway shows each year. The National Western Stock Show held in January at the Stock Show Grounds in Denver, Colorado. If you ever get a chance to attend this show, do so. It has been held for over 120 years in the same area in Denver. Galloways were one of the original breeds that exhibited there at the first NWSS. We are expecting a good turnout of exhibitors at the 2026 show. The other show is the World Beef Expo held in September in Milwaukee, Wisconsin. We are expecting a good turnout of exhibitors for this one as well.

The AGBA now has a Riggitt section of our herd book. This was created after a lengthy discussion of the committee of White Galloway breeders and Riggitt supporters. The committee presented this section to the board of directors and it was approved in the fall of 2023. The AGBA is also looking at other items or issues to update in order to keep the AGBA a viable organization. The AGBA will be publishing a North American Semen and Embryo Catalog that will be available later in the Spring of 2025.

We are looking forward to gathering with all of you at this conference. It is always great to meet and visit other Galloway Breeders!

Thanks for being here!

From the American Galloway Breeders Association.
